**Mediator Style & Process  
Preferences**

I approach mediation with the sensitivity that the facts to each dispute are unique to the parties. I give them the time and thoroughness they need and deserve, while being mindful that mediation should be an efficient process. Efficiency not only helps to control costs, but it keeps the parties from being unnecessarily entrenched in their positions because of avoidable delays.

My extensive training in ADR allows me to consider a “toolkit” of options that may provide for a successful resolution. I am comfortable and flexible in providing the parties with a range of mediation styles including facilitation, evaluation, and if appropriate a hybrid between the two; based on the needs, positions, and feedback I receive. I do prefer case summaries so that I can have some baseline understanding of the issues prior to the first meeting, but I am open to a format that suits the parties when mediating.

**Technology Proficiency**

Proficient with Zoom, GoToMeeting, and WebEx. E-signing capability with Adobe Sign and DocuSign.

Conducting in-person and remote hearings based on party preference.
